Guide for OnPar Entertainment

Entering:

When you enter the front doors, go to the front desk. There you will be able to start a tab. You will give a card to the employee, and you will receive an OnPar RFID – this will be used to get drinks from the tap (beer, wine, cocktails).

Sample and Fill – Tap your RFID card to any drink reader to start pouring. You can pour yourself a taster or a full pint. The front desk will also walk you through the process if you have questions.

Soft drinks and water are free of charge.

Ordering Food:

Food ordering systems allow you to place food order from anywhere you are sitting by scanning a QR code at the table. You will receive text alerts on your phone when the food is ready for you to swing by and pick up.

You will also find two Kiosk Stations that you may place orders.

Entertainment offered:

Public Karaoke (no charge), Duckpin Bowling, Mini-Golf, Dart Lanes, Pool Tables, Shuffleboard, 16-person Foosball, Ring Toss.

Pricing is located at the front desk for all activities.

Closeout:

Feel free to closeout at the front desk or simply drop your RFID card in the Designated Containers for how much tip you would like to leave and they will charge that amount to the card you gave when entering.
