Zoom Virtual Background

Want to show your TSMC 2020 spirit or simply hide your physical background when you have your video on? Try out TSMC 2020 background out! Simply save this image to your computer and upload it to the Zoom desktop app under your background and filters options in the settings menu. If you have the "mirror my video" option checked, the text on the background may appear backwards, but only to you. Your video is not mirrored for others who see your video. You can always uncheck this option to view your video with your background correctly.
